PIG REMIND Text 81010 @cshsshe

- Halter
- Food trough
- Bedding
 - o Cedar, TerrAmigo, or Patterson
- Water bucket
- Water hose and nozzle
- Fan
- Shampoo and Conditioner
 - o Antifungal is great
- 50cc/100cc Drench guns, do not recommend any smaller
- Zip ties
- Coastal or Alfalfa hay
- Dewormer
 - o Valbazen, Safe-guard, and Cydectin
- Cleaning supplies
 - o Chlorhexidine Solution mixed with water is a safe tool to clean stands, treadmill, pens, and any other areas your animal goes near.
- Muzzle
 - o Goats get the fabric type
 - o Lambs need hard ones because they will eat through the fabric
- Probiotics
 - o Probios paster or powder or DoctsProbiotics
- Mineral oil
- Gas X
- Fluid film
 - o Helps treat ringworm
- MTG
 - o Helps any skin issues (ringworm, staph, barn itch, or to grow hair)
- Revive skin and hair conditioner
- Betadine
 - o Antiseptic microbicide
- Brush
- Bungee cord
- Spray bottles
- When you set up your pen for the barn CLEAN THE PEN. Use Chlorhexidine mixed with water because it is safest for the animals already in the barn and for yours.
- When you get your animal, you **MUST** wash them with De-fungal shampoo and deworm!

Types of feeds:
